

## Information for Bryneven Primary School

We want you to be cyber savvy and help you if you have a cyber related issue.

SaveTNet Cyber Safety NPC is a registered non-profit company, which aims to save lives by creating awareness for responsible digital engagement.

We do this, by offering a NETWORK of support through partners and SaveTNet is the first point of reference for people who need cyber safety information or help.

In this way, SaveTNet also helps to fight the dark side of the web, by adding support to the group who is fighting digital pornography, human trafficking, sexual grooming and other related issues.

There are many parental control packages available and here are some for you to consider (in no particular order):

### TimeWize

#### Locally Developed

TimeWize Parental Control consists of **two separate apps**.

The first one "TimeWize Parental Control Parent App" is installed on the parent's phone. This can be installed on any Android device.

In the setup procedure, the parent will be prompted to download and install "TimeWize Parental Control Child App" on the child's device.

This can only be installed on an Android device at this point in time.

#### Special SaveTNet offer:

**Buy 1 license & get 1 FREE for the year**

**12 x R33 per month paid in advance (license per device)**
