

Dear Parents

30 November 2016

If you have not seen, our website has been redone. The Shop is next to ensure a better user experience.

With this website change there is a **new feature** that will be beneficial to you. I've attached a button image that can be user on your website or Facebook that links anyone that clicks the link directly to your school when they register. They will not need to search for the school. Try the link below and see, "Bryneven High School" is prepopulated on the registration form:

<https://www.webenefit.co.za/?scrollToRegister=true&beneficiaryId=5f8b27dc-89f1-4c44-97f2-5aac40690779>

Please ask your web developer to add the button with this link to your website and feel free to use on Facebook or other web links to ensure the person that clicks is linked to your school on registration.

I trust this little bit of tech will help a lot with registrations going forward.

Regards

Steve
